

## Prince Charles Is 60

- 1) Prince Charles has been around for a while  
Bringing to many people in this country a smile  
It's his 60th birthday today  
At which we all say hip hip hurray  
He's going to have an influence on the future of Britain forever  
Continually bringing people together
  
- 2) He with the Princes Trust awards came out  
Helping change young people's lives no doubt  
Also giving a lot of business and charity support  
Showing to many a nice kind thought  
He's going to have an influence on the future of Britain forever  
Continually bringing people together
  
- 3) Prince Charles loves time at the Highgrove home  
Where he does farming, with others or on his own  
He's interested in Architecture too  
As are also quite a few  
He's going to have an influence on the future of Britain forever  
Continually bringing people together
  
- 4) From all of Prince Charles we have seen  
He's fully worthy of succeeding the Queen  
But not knowing what the future has to tell  
We're still sure for him everything will go well  
He's going to have an influence on the future of Britain forever  
Continually bringing people together
