

Sir William Shakespeare

- 1) William Shakespeare, born in April 1564,
Became known as 'The English National Poet'
And now everyone does know it
He first went to study at Kings New School
Before as a member of Lord Chamberlain's Men Company of theatrical players
He proved he was no fool
- 2) William was brought up with 2 older sisters and 3 younger brothers yes
Just before he became an all-round good writer or so I guess
Now known by most people including you and me
He really did lots and lots of poetry
- 3) William with his writing being extremely very bright
Became a very good actor and playwright
Lots and lots of entertainment was to come his way
Without the slightest bit of delay
- 4) As now aware of in history by quite a few
William married Anne Hathaway in November 1582
Who then mostly had family of their dreams
Quite sooner than it seems
- 5) William famously performed time and time again
Until in 1603 he was even made one of the King's men
And though he died 400 years ago from today
His plays and poetry will continue to be read with no delay
