

The Great Singer Sir Rod Stewart

- 1) Rod Stewart was born on the 10th January 1945
And with lots of different music he was to bring the world alive
Before much time had gone
As a star rock & pop singer, and songwriter, he definitely got on
- 2) From 1961 to present as an all round song performer Rod has been around
For over 6 decades singing worldwide to be found
Selling over 250 million records yes
Being one of the best selling artists of all time or so I guess
- 3) Rod has had a number of marriages too
Is a father of quite a few
With most of them enjoying seeing him perform
Just about since they were born
- 4) Rod has had a handful of top ten hits in the UK
Coming out with more day after day
Many of his albums, including 'Sailing', topping the charts
In the UK, US, Canada and Australia fulfilling lots of different people's hearts
- 5) Rod was then given 'Knighthood' in 2016
As a Birthday Honour, for his services to music and charity, from the Queen
And he'll most probably continue singing for a while
Bringing to lots of the population a big smile
