

The Life Of Pope Francis

- 1) Pope Francis giving church leadership worldwide
Tried to get everyone to deeply abide
Meeting Christians around the world facing war
He had a bigger plead for peace than ever had before

- 2) In this world many things going rotten
Pope Francis was a pope for the poor, the downtrodden and forgotten
Here, there and just about everywhere
With millions of others he said plenty a prayer

- 3) Pope Francis with faith inspired all members of the population
Spreading the church's teaching of mercy and charity with no hesitation
He really did play a very big part
In sharing worldwide another warm heart

- 4) Today, on Monday 21st April 2025, Pope Francis aged 88 sadly did die
Though he'll be remembered forever no lie
Having the big attention of a worldwide upset face
Soon his Christian burial and ceremony will take place

- 5) Pope Francis at a later day
Will hopefully to heaven find his way
With his holiness he did all that he could
Wanting peacefulness shared worldwide, just like it should
