

The Life Of Queen Elizabeth II

- 1) In 2022 it was Queen Elizabeth's Platinum Jubilee
Through lots of people to all see
Because to be given lots of cheers
She had now as the British monarch done 70 years
This Queen will be remembered forever
And slip anyone's mind or heart never
- 2) With Prince Philip she had a lovely Royal Family yes
Including some great grandchildren or so I guess
Lots of them never living on their own
With a great line-up for the throne
This Queen will be remembered forever
And slip anyone's mind or heart never
- 3) The Queen whilst not being afraid
Took part in many a London parade
Each June Trooping the Colour on her birthday
At which lots of people said 'hip hip hurray'
This Queen will be remembered forever
And slip anyone's mind or heart never
- 4) This year there was plenty a Platinum Jubilee event
With all the public showing to the Queen what her reign had meant
She also in the Commonwealth had played a big part
Worldwide fully sharing her heart
This Queen will be remembered forever
And slip anyone's mind or heart never
- 5) Then the Queen sadly passed away on Thursday 8th September 2022
Which brought lots of dismay to oh quite a few
And next to be heard
Will be the development of King Charles III
This Queen will be remembered forever
And slip anyone's mind or heart never
