

The Life Of Richard Sherman

- 1) Richard Sherman was born in New York City, United States on the 12th June 1928
Then he grew up to be an all round American songwriter with no debate
For Walt Disney musical films, theatres and animations he did very well
That his long term future career deeply had to tell
- 2) In 1958 Richard, and his brother Robert, founded a music publishing company yes
Which was to run for quite a while or so I guess
Being a composer, lyricist, screenwriter, publisher and music director in his career
He was to provide music for 'Mary Poppins', 'The Jungle Book', 'Chitty Chitty Bang Bang'
And lots of other films or so I hear
- 3) Richard married Elizabeth Gluck in the year 1957
Who then took his family life to heaven
Together having a total of 3 children to bring up
Without any form of really bad luck
- 4) To be, by many people, deeply applaud
Richard, and his brother Robert, picked up plenty an award
Because they did extremely very good
Getting loads of music going just like it should
- 5) Richard having achieved much more music wise than ever before
Then sadly died, aged 95, on the 25th May 2024
Though he'll be remembered forever
And slip anyone's mind at all never
