

The Life Of Victor Willis

- 1) Victor Willis was born, in Dallas, US, on the 1st July 1951
And was to sing gospel music before much time had gone
To later move into performing jazz and soul
Doing both good and bad things in his life on the whole
- 2) Willis was to become an American singer-songwriter yes
In the 1970's co-founding the disco group 'Village People' or so I guess
Appearing costumed as a policeman or naval officer on TV and stage
Singing time and again age after age
- 3) Willis in producing numerous major hits had a good start
Into 'Macho Man', 'Y.M.C.A.', 'In the Navy' and 'Go West' playing a part
Which were to prove popular for ages
Making all the different music magazine pages
- 4) Willis later left the group 'Village People' for a while
Until in 2017 he rejoined them with a very big smile
Who resumed recording and touring internationally
For lots of fans to enjoy quite definitely
- 5) Then after doing well with all his song hits
Willis sadly died, after a short but aggressive illness, on the 30th June 2026
With President Trump and lots of others showing their tribute to him
Gathering together in an evening that was slightly dim
