

The Tragic Grenfell Tower Fire

- 1) The first anniversary of the fire of The Grenfell Tower took place today
Which had lots of people looking back at it with quite a lot of dismay
I'm sadly not telling any form of lie
When I say through this big fire 72 people did die
The Grenfell Tower tragedy will be thought of forever
And those people who died in it slip our minds never

- 2) Today a silent walk took place to mark this anniversary yes
Which is still upsetting to recall or so I guess
All the victims are deeply given sympathy
By everyone including you and me
The Grenfell Tower tragedy will be thought of forever
And those people who died in it slip our minds never

- 3) A memorial service at a nearby church also did take place today
Which lots of people attended with no delay
And outside the service using some gloves
In remembrance were released lots and lots of doves
The Grenfell Tower tragedy will be thought of forever
And those people who died in it slip our minds never

- 4) At midday a 72 second silence was had
With everyone, including The Queen and Meghan, looking back on an event that was very sad
A silent walk in the neighbourhood on the 14th of every month for a year has taken place
With lots of people having upsetting memories to face
The Grenfell Tower tragedy will be thought of forever
And those people who died in it slip our minds never

- 5) On this Remembrance Day across London to be seen
Lots of places and people showed the symbol of green
The names of those who died we'll never forget
But looking back at what happened to them have a lot of regret
The Grenfell Tower tragedy will be thought of forever
And those people who died in it slip our minds never
