

The World Athletics Indoor Championship 2026

- 1) The 21st World Athletics Championship was held from the 20th to 22nd March 2026
With competitors, to win a medal, having a lot to fix
Out to deeply achieve plenty a good mission
Lots of worldwide athletic sports people were competing in Poland with permission
- 2) The Great Britain team brought to the supporters a big smile
Doing the best for extremely oh quite a while
Bringing lots and lots of celebration to face
When overall, out of all the countries, they finished in 2nd place
- 3) On the first day of all Josh Kerr had the men's 3000 metres won
Then Keely Hodgkinson with the women's 800 metres had everything done
Followed by Georgia Hunter Bell winning the women's 1500 metres yes
Concluding with Molly Caudery gaining the women's Pole vault gold medal or so I guess
- 4) So, there was a great athletics competition event
With the Great Britain team doing just like they meant
Watched constantly by everyone including you and me
Whilst fully shown by the BBC sports coverage TV
