

Ukraine Today

- 1) When it comes to Ukraine
Now shipped from it other countries can hopefully have grain
To ease their food shortage pain
Which they've gone through time and again

- 2) Reliant on a Russia deal
Lots of foreigners could have a much bigger meal
And once again at ease feel
With some better thought becoming real

- 3) Next, we want the war to reach an end
The number of people suffering to deeply descend
Ukraine and Russia to once more be-friend
And bring to this world a big mend

- 4) So please let weapons be put away
And in war there be less of a frown today
But peace and happiness once more on its way
With not much delay
