

## Wheelchair Rugby League World Cup 2021

- 1) After the previous year 'lock-down', during the 3rd to 18th of November 2022  
The Wheelchair Rugby League World Cup 2021 was watched by quite a few  
Once more with it in England it-self taking place  
Where a great big smile was to be brought to many an English person's face
- 2) Led by Captain Tom Halliwell England got to the final yes  
Ready to attempt to beat France again or so I guess  
Who they'd lost to in the finals of 2013 and 2017  
When there was never-the-less 2 close encounters to be seen
- 3) France led 14-12 at half-time  
But soon for England all was to go quite fine  
Following towards full-time it being 24-24  
Halliwell stepped up and broke through once more to score
- 4) Without any at all debate  
This was England to triumph over France 24-28  
Which with not a bit of hesitation  
Was to have lots and lots of big celebration
- 5) This is something England Head Coach Tom Coyd will never miss  
With him saying 'wheelchair rugby league is going to explode through this'  
And through such a success being achieved with a very big cheer  
It will be deeply looked back on during 2022 BBC 'Sports Personality of The Year'
