

## Women's Cricket World Cup 2017

- 1) With lots of cricket skills to be seen  
England hosted the Women's Cricket World Cup 2017  
To follow on from 1973 and 1993  
This was the 3rd time England had done so for you and me
  
- 2) In the semi-final England Women's team beat South Africa 221, 218 yes  
Got just enough runs or so I guess  
And to reach the final under Captain Heather Knight  
There was quite a lot of sheer delight
  
- 3) Then England Women's team won in the final against India at 'Lords'  
228 to 219 which brought lots and lots of deep applause  
Now without a bit of hesitation  
There was plenty of team and spectator joyful celebration
  
- 4) In the final England cricket player Anya Shrubsole got 5 for 19  
With some splendid bowling to be seen  
She had really done very well  
In what her cricket career had come to tell
  
- 5) So yes with everything in this 11th edition going quite fine  
England's Women's cricket team became the World Champions for the 4th time  
And to be greeted with quite a big cheer  
Are bound to appear on 2017 'BBC Sports Personality of The Year'
